

PocketRx[®] Your Mobile Pharmacy for Mobile Customers Now for iPhone and Android

powered by Praeses

PocketRx is available from Praeses, a leader in mobile applications for the pharmacy industry. With PocketRx, you are able to offer your pharmacy customers the ability to refill their prescriptions directly from their smartphone. All they need is the RX number and they can place their order while on the move — directly and securely.

Invaluable Application Features For Your Pharmacy Business

- Application branded individually with your pharmacy name so it is fully searchable on the iTunes and Google Play stores
- Great user experiences always make happier customers
- Seamless integration with your current pharmacy management system

BENEFITS of PocketRx

- Individually branded for iPhone and Android
- Mobile refill access
- Seamless integration
- Increased competitiveness
- Store marketing
- No long term commitment
- Monthly plans available
- 10% discount on annual packages
- Sign up and manage your application online

It's Simple To Get Started With PocketRx

Signing up for PocketRx and managing your application has never been easier. We have launched a new web portal at www.pocket-rx.com that now not only allows you to sign up and customize PocketRx, but you can also manage your application — adding locations, changing store hours — and much, much more.

And as always, if you have any difficulties or just have a question, you can always contact one of our friendly and knowledgeable mobile specialists for assistance. Call or email us at the contact information listed below.

It's Simple And Affordable

You'll probably be astounded at the affordability of the PocketRx application. PocketRx can be customized for you and distributed to your customers with no long term commitment and a nominal setup fee. Or you can get discounts for annual subscriptions paid on an annual basis. All prices are for unlimited users and unlimited refills. Ask about our multiple location discounts.

That's how simple it is. Through our experienced and knowledgeable mobile specialists, we offer our pharmacy customers solutions that are not only beneficial to their business but customized for their business.
