

PrescribeWellness tools are designed to improve your patient's adherence to their medications and their loyalty to your pharmacy.

Patient Engagement Center & Pharmacy Now

See your patients in a whole new way

- » View your score on all Star Ratings medication use measures
- » Easily identify patients that are under-performing and provide them additional support
- » Conduct MTM with one-click access to MirixaProSM

PrescribeMedicare

Manage your Medicare Patient Population

- » Help your patients select the ideal Medicare plan based on their current prescriptions
- » Evaluate and share plan information with your patients
- » Proactively reach out to patients before they turn 65 and others in need of a Medicare plan review

Pharmacy Growth

Deliver timely, relevant communications to your patients

- » Record messages for your patients and send information with a personal feel without hiring additional staff
- » Easily deliver messages that encourage patient loyalty
- » Utilize behavior analytics, selective segmentation, and market-tested campaigns to improve adherence & loyalty

StarWellness

Leverage Technology-Enabled Med Sync

- » Improve adherence & performance measures
- » Easily maintain patients month-to-month, even push synced scripts to your pharmacy system's queue with StarWellness+
- » Increase revenue per patient enrolled in Med Sync to an additional \$200 to \$260 / year
