

## Get Your Pharmacy IVR, Telephone System, Outbound Patient Messaging & Phone App all in one place, from one reliable source!

**Smart** provides both IVR and Patient Messaging for less than other vendors charge for just one. Save time and improve patient service 24/7 by taking Refill Requests, Status Calls and Doctor Messages along with reminding patients to refill or pick-up their prescriptions.

By Choosing Smart Solutions as your Pharmacy Communications Partner you provide the personal service to your customers who expect and appreciate it, while providing the latest features for your tech-savvy patients who demand it! And, it's easy to get started with Smart's world class SmartCall IVR system with Hosted, Purchase or Rental arrangements!

**Smart Cloud-based Phone Systems can reduce your overall monthly phone bill** which will help cover the cost of SmartCall IVR or SmartDial Outbound Patient Messaging. Whether you're a First Time Buyer or Replacing an Older System, we help you avoid the hassle of on-site equipment ownership and maintenance. SmartCall IVR is also available as an on-site, in-store solution with a small initial fee and low monthly rental payments. Both options help you delay future technology obsolescence since all Software Upgrades are Free.

**SmartDial Outbound Patient Messaging Enhances Adherence by Reminding Patients to pick-up and refill their prescriptions on-time.** SmartDial is priced at a fraction of the cost of other messaging services and is available with or without a SmartCall IVR.

**Smart's MobileRx lets Patients use their Smart Phone** to refill prescriptions or check their prescription status, keeping them linked directly to your pharmacy.

**HIPAA Compliant voice mail:** SmartCall IVR voicemail ensures that your patient's PHI is secure; protecting you both by providing the HIPAA mandated encrypted voicemail and audit trail.
